

FEATURES & SPECIFICATIONS

INTENDED USE

DCAS2 and DSAS2 Aeris™ Decorative Arms are available for use with the large **Aeris™ (AS2) luminaire only**. DCAS1 and DSAS1 are compatible with the small Aeris™ (AS1). Decorative Arms are compatible with square poles and round poles.

CONSTRUCTION

One piece cast aluminum body with covered wiring access. Ribbed detail from Aeris™ fixture carries over on decorative arm for consistent look. Coated with polyester powder finish, specify color to match fixture when ordering.

INSTALLATION

Arm-to-Luminaire: Standard Aeris™ mounting block bolts to Decorative Arm and then secures to integral luminaire arm.

Arm-to-Pole: Standard Aeris™ mounting block bolts to square pole and then secures to end of Decorative Arm. Use standard Aeris™ drill template for pole bolt pattern. Order DCAS2R or DSAS2R for decorative arms that are compatible with round poles.

Ordering Information

Consult Aeris™ Specification Sheets for ordering information.
